EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Anderson on March 1, 2006.

IN THE CLAIMS

Please amend claim 36 without prejudice or disclaimer.

Please cancel claims 31-35 without prejudice or disclaimer.

Please amend claim 36 as follows:

36. **(CURRENTLY AMENDED)** An apparatus comprising:
a network processor to execute a software data communication platform, the software data communication platform to support one or more data communication protocols, the software data communication platform to receive a data signal formatted according to a data communication protocol, and determine if the data communication protocol of the data signal is supported by a hardware data communication platform; and
a network switch circuit coupled to the network processor to include an application specific integrated circuit (ASIC) to execute a hardware data communication platform, the hardware data communication platform to support a data communication protocol not supported by the software data communication platform, the hardware data

communication platform having a filter engine with a filter path to process a data signal for routing and a by-pass path to route the data signal through the filter engine without processing the data signal by the filter engine, the network switch circuit to receive the data signal at the filter path to process the data signal with the hardware data communication platform if the network processor indicates the data communication protocol of the data signal is supported by the hardware data communication platform, or else to receive the data signal at the by-pass path to process the data signal with the software data communication platform if the network processor indicates the data communication protocol of the data signal is not supported by the hardware data communication platform.

2. Claims 21-30, 36-39 are allowed.
